

IN THE CLAIMS

Please amend the claims as follows:

4. (Currently amended) An optical record carrier according to ~~any one of the preceding claims~~ 1, wherein said relief structure comprises a pit/land structure holding the thickness variation data.
5. (Currently amended) An optical record carrier according to ~~any of claims 1 to 3~~, wherein said relief structure comprises a groove structure having a wobble pattern holding the thickness variation data.
6. (Currently amended) An optical record carrier according to ~~any one of the preceding claims~~ 1, wherein the record carrier is in the form of a disc, and the thickness variation data indicates a radial thickness profile.
